

ReSound Up Smart™

Because every word matters

ReSound Up Smart™ is a premium hearing aid family for children of all ages and hearing losses. It is a game changer in the way children are granted easy and direct access to the sounds they need for speech and language development. ReSound Up Smart meets or surpasses all pediatric requirements, including safety requirements.

Surround Sound by ReSound™ ensures audibility and consistently clear and comfortable sound, even at high output levels, in all listening situations, due to advanced pediatric features.

As the first pediatric Made for iPhone hearing solution, ReSound Up Smart 9, 7 and 5 receives stereo sound directly from an iPhone, iPad or iPod touch to benefit listening and language learning in more fun ways for infants and pre-schoolers, and to provide educational and social media interaction possibilities for older children and teens. And with the ReSound Smart™ app, the child or the parent can adjust the hearing aids easily, discreetly and intuitively from iOS devices.

ReSound Up Smart offers a line-up of modern and powerful wireless BTEs for mild to profound hearing losses.
